Environmental Policy

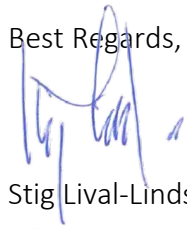

Protecting nature is highly valued by Lival.

Lival identifies and determines the most relevant environmental aspects to our organization. Based on relevance we set goals and implement measures. We systematically monitor environmental progress of our activities as well as of the supply chain.

Over the years, environmental awareness has grown among our employees and is now implemented throughout our everyday process routines.

Lival maintains an open communication with its stakeholders, with the objective of constantly minimizing environmental impacts.

Best Regards,

Stig Lival-Lindström

CEO

Oy Lival Ab
